Q6

CASE STUDY

The GM (Works) has problems with manufacturing budgets, meeting cost reduction targets, and dealing with new products manufacturing schedules. When an in-depth interview (non-directive type) was conducted between the GM (Works) and the Chairman of the Company, the GM (Works) explained that many things are happening in the Company about which he is ignorant, particularly the preparation, new product integration, etc. He agrees to the view that the Company is interested in high-growth and high-profit, but he has never been given an opportunity to review his own scheme of things and explain to the top management. The production culture of the company has never been assessed whereas the finance and personnel departments are directing the stringent rules. And sometimes, show cause notices are being served to supervisors and senior employees. The Company is introducing new products without assessing the capability of the manufacturing system and the resources.

- a) Suppose you are tasked to work as a consultant to show the perspectives to the Board of Management, explain the action plans you would suggest. [15 marks]
- b) Comment on the impact of Business Process Re-engineering (BPR) in situations like these. [10 marks]
